## Giant 4 In A Row

### Objective:

Be the first player or team to get four of your colored coins in a row - horizontally, vertically, or diagonally.

### How to Play:

- 1: Games are played between 2 teams (1-on-1 or 2-on-2). If played with 2 player teams, teammates alternate turns.
- 2: Teams should pick their coin color (red or blue) and then decide who plays first (rock-paper-scissors, coin flip, etc.).
- 3: On your turn, drop one of your coins down any of the slots on top.
- 4: Continue alternating turns until one player gets "four-in-a-row." You can win horizontally, vertically or diagonally.
- 5: If the grid fills up before there is a winner, the game is a tie.
