## JENGA<sup>®</sup> GIANT<sup>™</sup> Game Play Instructions

### Set up

Place three blocks next to each other, wide side down. Build more stories, alternating block direction, until you have an 18-story tower.

### Play:

- 1) The player who set up the tower, goes first. The person to the left, plays next.
- 2) Using one hand at a time, remove one block from anywhere BELOW the highest completed story. You can touch blocks to find a loose one, but if you move a block out of place, you must fix it before touching another block.
- 3) Place your block on top of the tower. A 3-block story must be completed before a higher one is started. Your turn ends 10 seconds after you stack your block or as soon as the next player has touched a block.
- 4) Keep removing and stacking blocks until someone topples the tower. An expert can build a tower 44 stories high or more!

### Win:

The last player to stack a block without causing the tower to crash, wins. The player who crashes the tower, sets up the blocks for the next game.

### Solo Play:

Play alone for practice! Can you top your record height before the tower falls?

### Get Creative:
